

Jon Barnett

SYNOPSIS

Jon is a Senior Consultant with Diversified Design Group, Inc. He specializes in video systems design.

Jon has been a Consultant for ten years in addition to working many more years as an Engineer in the professional broadcast field.

Jon's work experience allows him the advantage of understanding both the commercial and educational environments. He understands the needs and wants of the owner and how to differentiate between the two.

Jon has designed everything from multi-million dollar broadcast control rooms to basic projection and video recording systems.

Jon brings a high level of professionalism and integrity to his consulting. He has the knowledge and experience to develop high quality system designs to meet the needs of the client.
